Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Long Beach Unified School District (the District) as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District, as of June 30, 2023, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter

As discussed in Note 1 to the financial statements, effective July 1, 2022, the District adopted new accounting guidance for subscription-based information technology arrangements (SBITA). The guidance requires recognition of a SBITA asset and corresponding subscription payable. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's discussion and analysis, budgetary comparison information, schedule of change in the total postemployment healthcare benefits liability and related ratios, schedule of the District's proportionate share of the net pension liability, and schedule of the District's pension contributions, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

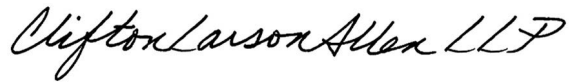

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The schedule of average daily attendance (ADA), schedule of instructional time, reconciliation of the annual financial and budget report with the audited financial statements, and the schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the schedule of average daily attendance (ADA), schedule of instructional time, reconciliation of the annual financial and budget report with the audited financial statements, and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The history and organization, schedule of financial trends and analysis, and schedule of charter schools have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 30, 2023 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2023**

This section of Long Beach Unified School District's (LBUSD) annual financial report presents a discussion and analysis of the District's financial performance during the fiscal year ended June 30, 2023.

ABOUT LONG BEACH UNIFIED SCHOOL DISTRICT

Established in 1885 with fewer than a dozen students meeting in a borrowed tent, LBUSD now educates over 66,000 students in eighty-three (83) K-12 schools, one adult school, and two (2) charter schools in the cities of Long Beach, Signal Hill, Santa Catalina Island, plus a major portion of Lakewood, and unincorporated territory in Los Angeles County. As the third largest school district in California, LBUSD serves the most diverse large city in the United States, with dozens of languages spoken by local students. The District employs more than 10,000 full and part time employees, making it the largest employer in Long Beach. The Long Beach Unified School District has earned a reputation as one of America's finest school systems, winning many awards as a national model of excellence.

Financial Highlights

- The District approved the issuance of general obligation bonds to improve classroom and school facilities within the District. Measure K, Series G was issued 5/2/2023 for \$80 million, Measure E, Series C was issued 5/2/2023 for \$300 million and Measure Q, Series A was issued 5/2/2023 for \$100 million. This caused an increase in the Cash in County Treasury balance.
- Overall revenues and other financing sources totaled \$1.69 billion or \$334.6 million more than expenditures.
- The District's total long term debt obligations increased during the year by \$456 million. The increase was attributable to the issuance of the three general obligation bonds, also including subscription based-information technology arrangements (SBITA). (See Note 7).
- At the end of the current fiscal year, assigned and unassigned fund balances for the General Fund, including the reserve for economic uncertainties and the balance in the Special Reserve Fund for Future Non-Capital Projects was \$122 million and a Committed balance for Continuity of Staffing was \$335 million. (See Note 5).

Overview of the Financial Statements

This financial report is presented in four parts: Management's Discussion and Analysis (this section), the basic financial statements, the required supplementary information and the supplementary information. The financial statements included herein present these different views of District finances:

- The Government-wide Statement of Net Position and Statement of Activities provide both long-term and short-term information about the District's overall financial statements. These statements are provided at summary level within the Management's Discussion and Analysis for further review.
- The subsequent statements are fund financial statements that focus on individual components of the District, reporting in more detail on District-wide operations.
- Proprietary funds statements offer short and long-term financial information about the activities that operate like a private enterprise, such as the Self-Insurance Fund.
- The fiduciary fund statement provides information about Associated Student Body Funds for which the District acts solely as a trustee.

The financial statements also include notes that provide explanations for more detailed information. The financial statements comparing the District's General Fund budgeted to actual amounts for the year are supplemented by a narrative on significant variances.

District-Wide Statements

Two District-wide statements report financial information using accounting methods similar to those used by private-sector companies. The statement of net position summarizes the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities, regardless of when the cash is received or expenses paid.

The following District-wide statements report on the District's net position and how they have changed during the 2022-23 fiscal year. Net position – the difference between the District's assets and liabilities – is one way to measure the District's financial health.

- Over time, increases or decreases in net position are an indicator of whether the District's financial position is improving or deteriorating.
- To assess the District's overall fiscal health, additional non-financial factors such as changes in the District's property tax base, fixed assets, and the physical condition of school buildings and other facilities are taken into consideration.

Total revenues between the 2021-22 and 2022-23 fiscal years increased 37.32%.

Revenues increased \$478.3 million, while expenses increased \$310.5 million. General Revenue increases were mainly due to continued federal and state assistance to schools. Increased spending was directly related to the federal and state assistance for schools as well as the cost of retirement and health and welfare benefits, and salary schedule increases approved in 2022-23.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's operations, focusing on its most significant or "major" funds and not the District as a whole. Funds are accounting entities used by the District to track specific sources of funding and their related programmatic spending.

- Most fund designations are defined in state law and regulations
- The District establishes other funds to control and manage resources committed to particular purposes or to show that resources are properly used for certain categories of revenues.

The District operates two types of funds:

- **Governmental funds** - Most of the District's basic instructional and support services are included in governmental funds, which generally focus on (1) how cash and other assets can readily be converted to cash flow and (2) the amount of funds remaining at year-end for subsequent year spending. Therefore, the governmental fund statements provide a detailed, short-term view to assist the reader in determining whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs and activities.
- **Proprietary funds** - The District uses internal service funds to report proprietary activities that provide services to its other program activities. The District currently has one internal service fund – the Self-Insurance Fund.

Financial Analysis of the District's Funds

As the district completed the year, its governmental funds reported combined fund balances of \$1.4 billion, compared to last year's combined ending balances of \$825.8 million. The Building Fund ending balance increased by \$423 million between years due to the proceeds from sales of bonds.

General Fund Budgetary Highlights

Over the course of the year, the District revises its budget several times. Revenues for grants and entitlements from federal, state and local resources are budgeted as sources are identified throughout the year. Appropriations for expenditures are made throughout the year when new sources of revenue are identified.

Although adjustments to revenue and expense budgets are made throughout the year, actual revenues and expenditures differed from final budget amounts

- Grants are budgeted to include amounts that will carry over for spending in the next year. Accounting rules require only the amount spent during the year to be recognized as income.
- Actual expenses in general reflected lower amounts than the final budget amounts. The balances that were generated by restricted grants and entitlements will become carry-over funds for the next year.
- The expenditure category of books and supplies includes amounts that are being held in reserve in the revised final budget.

Capital Assets and Long-Term Debt

Capital Assets

By the end of fiscal year 2022-23, the District had invested \$2.51 billion in a broad range of capital assets, including land, land improvements, buildings, work in progress, vehicles, machinery and equipment. This amount represents an increase of \$141 million, or 5.94% over last year. This increase represents work on many projects, including continuing work on Jordan High School, multiple air conditioning projects, and numerous smaller renovations and modernizations to sites.

Long-Term Debt

At year-end, the District had \$1.9 billion in long-term debt. General Obligation Bonds accounted for \$1.8 billion, including related premium and accreted interest. The District's bond rating was affirmed as AAA by Fitch in January 2022. The remaining \$17 million of long-term debt represents the value of accumulated employee vacation time, the SBITA payables and leases payables. In comparison to last year, the net pension OPEB liability is no longer reflected in this schedule.

Economic Factors That May Affect the Future

The voters in California passed Proposition 55 in November 2016, extending the personal income tax increase originally generated from Proposition 30 for an additional 12 years. This increased funding source will not expire until the year 2030. While this does not necessarily provide additional funding over current levels, it helps to stabilize current levels of funding for future planning and programs for students.

Additional Federal and State one-time funds were made available in 2021-22 to school districts to continue funding social emotional supports, learning loss mitigation, and continued disinfection at all sites. Potential decreases in tax and other revenues to the state may dictate reductions in school funding in the near future. If this occurs, significant financial struggles will return to the district and difficult choices will need to be made.

Future Federal dollars are uncertain. Categorical programs, such as Title I, are being reduced based on decreased student eligibility and reduced per pupil funding. The district is continuing to experience declining enrollment; in 2021-22 the district experienced over a 2.5% decline and in 2022-23 it was 2.6%. While the State is helping to mitigate declining enrollment and related funding throughout the state, the district needs to be mindful of the budget implications for future years.

FUNDS AND DEFINITIONS OF ACCOUNTING TERMS

The General Fund is always reported as a major fund. Other governmental and enterprise funds are to be reported as **major funds** based on the following criteria:

- Total assets, liabilities, revenues, or expenditures of the individual governmental or enterprise fund (excluding extraordinary items) are at least 10% of the corresponding total for all funds of the same category (i.e. governmental or enterprise funds), and,
- Total assets, liabilities, revenues or expenditures of the individual governmental or enterprise fund are at least 5% of the corresponding total for all governmental and enterprise funds combined.

Any other governmental or enterprise fund may be reported as a major fund if the governmental entity believes that it is particularly important to the readers of their financial statements.

General Fund: The fund used to finance the basic operations of a school district and to serve students in grades kindergarten through twelve. These resources are available for any legally authorized purpose of the District.

Building Fund: Established to hold funds generated for capital outlay projects. These resources may come from the sale of District facilities and property, from the sale of District bonds, from the sale of bonds by the state government or from the transfer of funds from the General Fund.

Debt Service Fund: This fund is used for the repayment of bonds issued for the school district. The board of supervisors of the county issues the bonds and the proceeds are deposited in the county treasury to the Building Fund of the District. The county auditor maintains control over the fund. Principal and interest on the bonds is paid by the county treasurer from taxes levied by the county auditor-controller. Expenditures in this fund are limited to bond interest, redemption and related costs.

REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES TO
THE STATEMENT OF ACTIVITIES
YEAR ENDED JUNE 30, 2023**

Net change in fund balances - total governmental funds \$ 642,541,472

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, assets with an initial, individual cost of more than \$5,000 are capitalized and the cost is allocated over their estimated useful lives and reported as depreciation expense.

Capital outlay	\$ 144,579,305	
Depreciation and amortization expense	<u>(38,077,589)</u>	
Excess of capital outlay over depreciation/amortization expense		106,501,716

Gain or loss from disposal of capital assets: In governmental funds, the entire proceeds from disposed assets are recorded as revenue. In the statement of activities, only the resulting gain or loss is reported. The difference between the proceeds from disposal of capital assets and the resulting loss was: (583,820)

Governmental funds report the repayment of debt principal and interest when payments are due. In the statement of activities, debt principal is eliminated and reported as a reduction in debt in the statement of net position, and interest is recognized as it accrues, regardless of when it is due. The net effect of these differences in the treatment of debt and related items is as follows:

Repayment of bond principal	\$ 54,620,000	
Net increase in accreted interest	(12,899,153)	
Bond premium, current year amortization	4,737,918	
Decrease in deferred charge on refunding	(1,012,136)	
Decrease in accrued interest expense	(8,530,547)	
Principal payment on leases	1,185,294	
Principal payment on SBITAS	<u>716,385</u>	
Change in debt		38,817,761

Issuance of bonds and capital leases are reported as proceeds in governmental funds, but increases long-term liabilities in the statement of net position (502,607,524)

In the statement of activities, certain operating expenses - are measured by the amount of financial resources used compensated absences (vacations), - are measured by the amounts earned during the year. In the governmental funds however, expenditures for these items (essentially, the amounts actually paid). During this year, vacation payable decreased by: (1,952,688)

\$ 65,065,153

Certain items such as postemployment benefits other than pensions reported in the statement of activities do not result in, or require, the use of current financial resources and, therefore, are not reported as revenue or expenditures in governmental funds.

LONG BEACH UNIFIED SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2023

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The District accounts for its financial transactions in accordance with the policies and procedures of the California Department of Education's California School Accounting Manual, updated to conform to the most current financial and reporting requirements promulgated by the California Department of Education. The accounting policies of the District conform to generally accepted accounting principles (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB).

The significant accounting policies applicable to the District are described below.

Basis of Presentation

The accompanying financial statements have been prepared in conformity with GAAP as prescribed by GASB. The government-wide financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting and the fund financial statements are prepared using the current measurement focus and modified accrual basis of accounting. The financial statement presentation required by GASB provides a comprehensive, entity-wide perspective of the District's financial activities.

The District's basic financial statements consist of government-wide statements, including a statement of net position, a statement of activities, and fund financial statements.

Government-Wide Financial Statements

The statement of net position and the statement of activities displays information about the District as a whole. These statements include the financial activities of the primary government, including governmental activities of proprietary funds.

The statement of net position presents the financial condition of the governmental activities of the District at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and, therefore, clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program, and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the District. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District. Depreciation has been allocated to specific functions while interest and amortization expense has not been allocated to specific functions.

**LONG BEACH UNIFIED SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2023**

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fund Financial Statements

During the year, the District segregates transactions related to certain District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the District at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Proprietary funds are reported by type.

The fund financial statement expenditures are presented in a function-oriented format. The following is a brief description of the functions:

Instruction: includes the activities directly dealing with the interaction between teachers and students.

Instruction-Related Services: includes supervision of instruction, instructional library, media and technology, and school site administration.

Pupil Services: includes home to school transportation, food services, and other pupil services.

Ancillary Services: includes activities that are generally designed to provide students with experiences outside the regular school day.

Community Services: includes activities that provide services to community participants other than students.

Enterprise Activities: includes activities that are financed and operated in a manner similar to private business enterprises, where the stated intent is that the costs are financed or recovered primarily through user charges. This function is used with self-insurance funds and retiree benefit funds.

General Administration: includes data processing services and all other general administration services.

Plant Services: includes activities of maintaining the physical plant. This also includes facilities acquisition and construction expenditures.

Other Outgo: includes transfers to other agencies.

Debt Service: includes principal and interest payments for long-term debt.

The proprietary and fiduciary fund expenses are presented by natural classification.

**LONG BEACH UNIFIED SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2023**

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fund Accounting

To ensure compliance with the California Education Code, the financial resources of the District are divided into separate funds for which separate accounts are maintained for recording cash, other resources and all related liabilities, obligations, and equities.

The statement of revenues, expenditures and changes in fund balance are statements of financial activities of the particular fund related to the current reporting period. Expenditures of the various funds frequently include amounts for land, buildings, equipment, retirement of indebtedness, transfers to other funds, etc. Consequently, these statements do not purport to present the result of operations or the net income or loss for the period as would a statement of income for a profit-type organization.

Governmental Funds – Major

General Fund: used to account for all financial resources except those required to be accounted for in another fund. The Special Reserve Fund for Other than Capital Outlay Projects does not meet the definition of a special revenue fund as it is not primarily composed of restricted or committed revenue sources. Balances in the Payroll Clearance Fund no longer meet the definition of fiduciary activities. Therefore, balances and activities of these funds are reported in the General Fund.

Building Fund: used to account for the proceeds of Measure A, Measure K, Measure E, and Measure Q General Obligation Bonds.

Governmental Funds – Nonmajor

Special Revenue Funds: used to account for the proceeds of specific revenue sources that are restricted or committed to expenditures for specific purposes other than debt service or capital projects.

Student Activity Fund: used to account for raising and expending money to promote the general welfare, morale, and educational experiences of the student body. The District operates 36 organized Associated Student Bodies.

Adult Education Fund: used to account for resources restricted or committed to adult education programs maintained by the District.

Child Development Fund: used to account for resources restricted to child development programs.

Cafeteria Fund: used to account for revenues received and expenditures made to operate the District's food and nutrition service program.

**LONG BEACH UNIFIED SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2023**

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Governmental Funds – Nonmajor (Continued)

Capital Projects Funds: used to account for the financial resources that are restricted, committed or assigned for the acquisition and/or construction of major governmental general capital assets.

Capital Facilities Fund: used to account for resources received from residential and commercial developer impact fees.

County School Facilities Fund: used to account for the School Facility Program grants award for modernization and new construction of various school sites.

Special Reserve Fund for Capital Outlay Projects: used to account for specific board-approved capital expenditures.

Debt Service Fund: used to account for the financial resources that are restricted and the accumulation of resources for, the payment of general long-term debt principal, interest, and related costs.

Bond Interest and Redemption Fund: used to account for the payment of principal and interest on general obligation debt.

Proprietary Fund

Self-Insurance Fund: used to account for services rendered on a cost-reimbursement basis within the District. The Self-Insurance Fund consists of Health, Vision and Dental Insurance and Workers' Compensation Insurance Programs – used to account for resources restricted to the District's health, vision, dental and workers' compensation insurance programs. This fund is also used to account for retiree health care costs and reserves for future payments related to other postemployment benefits and to account for resources restricted to the District's self-insurance program for property loss or damage.

Basis of Accounting

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of measurement made, regardless of the measurement focus applied. Revenues in governmental fund financial statements are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period, with the exception of state apportionment, interest and reimbursement grants which are considered available as collectible within one year.

Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary funds use the accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of unearned revenue, and in the presentation of expenses versus expenditures.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Cash and Cash Equivalents

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. Cash in the county treasury is recorded at cost, which approximates fair value.

Receivables

Receivables are generally recorded when the amount is earned and can be estimated. All material receivables are considered fully collectible.

Stores Inventory

Stores inventories are presented at the lower of cost or market on an average basis and are expensed when used. Stores inventory consists primarily of expendable supplies held for consumption. At June 30, 2023, the inventory for supplies is \$744,290. The inventory for food is \$1,651,561. The inventory for sale by the associated student activity fund is \$17,380.

Prepaid Expenses and Other Current Assets

Prepaid Expenses

Payments made to vendors for goods or services that will benefit periods beyond June 30, 2023, are recorded as prepaid items. A current asset for the prepaid amount is recorded at the time of the purchase and an expense/expenditure is reported in the year in which goods or services are consumed.

Other Current Assets

Investments held in the associated student body fund are reported at fair value.

Capital Assets

Generally, capital assets result from expenditures in the governmental funds. These assets are reported in the governmental activities' column of the statement of net position but are not reported in the fund financial statements.

Capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their acquisition values as of the date received. The District maintains a capitalization threshold of \$5,000. The District does not own any infrastructure as defined by GASB. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized.

**LONG BEACH UNIFIED SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2023**

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Capital Assets (Continued)

All reported capital assets except for land and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

Buildings and Improvements	50 Years
Land Improvements	20 Years
Furniture and Equipment	5 to 20 Years
Vehicles	6 Years

Depreciation expense reported on the government-wide statement of activities excludes direct depreciation expense recorded to functions where applicable.

Right-to-use lease assets are initially measured at the present value of payments expected to be made during the lease term, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized in a systematic and rational manner over the shorter of the lease term or the useful life of the underlying asset.

SBITA assets are initially measured as the sum of the present value of payments expected to be made during the subscription term, payments associated with the SBITA contract made to the SBITA vendor at the commencement of the subscription term, when applicable, and capitalizable implementation costs, less any SBITA vendor incentives received from the SBITA vendor at the commencement of the SBITA term. SBITA assets are amortized in a systematic and rational manner over the shorter of the subscription term or the useful life of the underlying IT assets.

Deferred Outflows/Inflows of Resources

Deferred outflows of resources represent a consumption of net position or fund balance that applies to a future period(s) and thus, will not be recognized as an outflow of resources (expense/expenditure) until then. Deferred inflows of resources represent an acquisition of net position by the District that is applicable to a future reporting period and will not be recognized as revenue until then. These amounts are reported in the government-wide statement of net position.

Deferred Charge on Refunding: A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

Deferred Outflows/Inflows – Other Post-Employment Benefits (OPEB): The deferred outflows/inflows of resources related to OPEB benefits results from actuarially determined changes to the OPEB plan. The amounts will be deferred and amortized as detailed in Note 10 to the financial statements.

**LONG BEACH UNIFIED SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2023**

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Deferred Outflows/Inflows of Resources (Continued)

Deferred Outflows/Inflows – Pensions: The deferred outflows/inflows of resources related to pensions resulted from District contributions to employee pension plans subsequent to the measurement date of the actuarial valuations for the pension plans and the effects of actuarially-determined changes to the pension plan. These amounts are deferred and amortized as detailed in Note 11 to the financial statements.

Unearned Revenue

Cash received for federal and state special projects and programs is recognized as revenue to the extent that qualified expenditures have been incurred. Unearned revenue is recorded to the extent cash received on specific projects and programs exceed qualified expenditures.

Compensated Absences

Accumulated unpaid employee vacation benefits are recognized as a liability when incurred in the government-wide financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

Sick leave benefits are accumulated without limit for each employee. The employees do not gain a vested right to accumulated sick leave, therefore, accumulated employee sick leave benefits are not recognized as a liability of the District. The District's policy is to record sick leave as an operating expense in the period taken. However, unused sick leave is added to the creditable service period for calculation of retirement benefits when the employee retires.

Long-Term Obligations

The District reports long-term debt of governmental funds in the government-wide financial statements. Long-term debt and other obligations financed by proprietary funds are reported as liabilities in the appropriate funds.

Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. General obligation bonds are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Net Pension Liability

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the California State Teachers' Retirement System (CalSTRS) and the California Public Employees' Retirement System (CalPERS) plan for schools (Plans) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalSTRS and CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms.

Member contributions are recognized in the period in which they are earned. Investments are reported at fair value.

Net Position

Net position represents the difference between assets plus deferred outflows of resources less liabilities and deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation/amortization, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvements of those assets. Net position is reported as restricted when there are limitations imposed on use through external restrictions imposed by donors, grantors, laws or regulations of other governments or by enabling legislation adopted by the District. All other net position not in these categories is reported as unrestricted.

Fund Balance Classification

The governmental fund financial statements present fund balance classifications that comprise a hierarchy based on the extent to which the District is bound to honor constraints on the specific purposes for which amounts can be spent. The classifications used in the governmental fund financial statements are as follows:

Nonspendable: This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact.

Restricted: This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation.

Committed: This classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the District Board of Education. These amounts cannot be used for any other purpose unless the District Board of Education removes or changes the specified use by taking the same formal action (vote or resolution) that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements.

**LONG BEACH UNIFIED SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2023**

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fund Balance Classification (Continued)

Assigned: This classification includes amounts that are constrained by the District's intent to be used for a specific purpose but are neither restricted nor committed. The District Board of Education, through a formal action has given authority to the Chief Business and Financial Officer or designee to assign amounts for a specific purpose that is neither restricted nor committed.

Unassigned: This classification includes the residual fund balance for the General Fund and all other spendable amounts.

Spending Order Policy

The District considers restricted amounts to have been spent when an expenditure is incurred for purposes for which both restricted and unrestricted net position or fund balance is available.

When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District's policy considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the District Board of Education has provided otherwise in its commitment or assignment functions.

Minimum Fund Balance Policy

The District has adopted a minimum fund balance policy in order to protect against revenue shortfalls and unexpected one-time expenditures. The policy requires a reserve for economic uncertainties consisting of unassigned amounts which represent the minimum recommended reserve consistent with the criteria and standards for fiscal solvency adopted by the State Board of Education. The minimum recommended reserve for a district this size is 2% of budgeted General Fund expenditures and other financing uses.

State Apportionments

Certain current year apportionments from the state are based upon various financial and statistical information of the previous year. Second period to annual corrections for local control funding formula and other state apportionments (either positive or negative) are accrued at the end of the fiscal year.

Property Taxes

Secured property taxes attach as an enforceable lien on property as of January 1. Taxes are payable in two installments on November 1 and February 1. Unsecured property taxes are payable in one installment on or before August 31.

Real and personal property tax revenues are reported in the same manner in which the county auditor records and reports actual property tax receipts to the California Department of Education. This is generally on a cash basis. A receivable has not been recognized in the General Fund for property taxes due to the fact that any receivable is offset by a payable to the state for local control funding formula purposes. Property taxes for debt service purposes have been accrued in the Government-wide financial statements.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

On-Behalf Payments

GAAP requires that direct on-behalf payments for fringe benefits and salaries made by one entity to a third-party recipient for the employees of another, legally separate entity be recognized as revenue and expenditures by the employer government. The state California makes direct on-behalf payments for retirement benefits to the State Teachers' Retirement System on behalf of all school districts in California. Contributions made during the fiscal year ended June 30, 2023 totaled \$42,218,822. The amount of on-behalf payments made for the District has been recorded in the fund financial statements.

Classification of Revenues – Proprietary Fund

Proprietary funds distinguish operating revenues from nonoperating revenues. Operating revenues include activities that have the characteristics of exchange transactions, such as food service sales, federal and most state and local grants and contracts, and self-insurance premiums. Nonoperating revenues include activities that have the characteristics of nonexchange transactions that are defined as nonoperating revenues by GASB.

Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Adoption of New Accounting Standard

GASB Statement No. 96, *Subscription-Based Information Technology Arrangements*

In May 2020, the GASB issued GASB Statement No. 96, *Subscription-Based Information Technology Arrangements*. This standard defines a subscription-based information technology arrangement (SBITA); establishes that a SBITA results in a right-to-use subscription asset (an intangible asset) and a corresponding subscription liability; provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and requires note disclosures regarding a SBITA.

The District adopted the requirements of the guidance effective July 1, 2022 and has applied the provisions of this standard to the beginning of the period of adoption. See Note 16 for the restatement as a result of this implementation. See restatement note.

Reporting Entity

The District is the level of government primarily accountable for activities related to public education. The governing authority consists of elected officials who, together, constitute the District Board of Education.

LONG BEACH UNIFIED SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2023

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Reporting Entity (Continued)

The District considered its financial and operational relationships with potential component units under the reporting entity definition of GASB. The basic, but not the only, criterion for including another organization in the District's reporting entity for financial reports is the ability of the District's elected officials to exercise oversight responsibility over such agencies. Oversight responsibility implies that one entity is dependent on another and a financial benefit or burden relationship is present and that the dependent unit should be reported as part of the other.

Oversight responsibility is derived from the District's power and includes but is not limited to financial interdependency; selection of governing authority; designation of management; ability to significantly influence operations; and accountability for fiscal matters.

Due to the nature and significance of their relationship with the District, including ongoing financial support of the District or its other component units, certain organizations warrant inclusion as part of the financial reporting entity. A legally separate, tax-exempt organization should be reported as a component unit of the District if all of the following criteria are met:

- The economic resources received or held by the separate organization are entirely or almost entirely for the direct benefit of the District, its component units, or its constituents.
- The District, or its component units, is entitled to, or has the ability to otherwise access, a majority of the economic resources received or held by the separate organization.
- The economic resources received or held by an individual organization that the District, or its component units, is entitled to, or has the ability to otherwise access, are significant to the District.

Based upon the application of the criteria listed above, the following potential component units have been excluded from the District's reporting entity:

Long Beach Education Foundation: The Foundation is a separate nonprofit corporation established with the express purpose of promoting and assisting the educational program of the District in accordance with the mission, policies and priorities of the District. The Foundation Board of Directors is selected independent of any District Governing Board elections. The Foundation Board is responsible for approving its own budget and related accounting and finance activities. Separate financial statements for this entity can be obtained through the District.

**LONG BEACH UNIFIED SCHOOL DISTRICT

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Reporting Entity (Continued)

California State University Dominguez Hills Foundation: The Foundation is a separate nonprofit corporation. The Foundation Board of Directors is elected independent of any District Governing Board appointments. The Foundation Board is responsible for approving its own budget and accounting and finance related activities. The Foundation supports some functions of the California Academy of Mathematics and Science (CAMS) – a high school under the jurisdiction of the District.

Charter Schools: Clear Passage Educational Center, and Intellectual Virtues Academy – These charter schools receive funding directly from other government agencies and have a separate governing board. Separate financial statements for these entities can be obtained through the District.

NOTE 2 BUDGETS

By state law, the District Board of Education must approve a budget no later than July 1, using the Single Adoption Budget process. A public hearing must be conducted to receive comments prior to adoption. The District Board of Education satisfied these requirements. Budgets for all governmental funds were adopted on a basis consistent with GAAP.

These budgets are revised by the District Board of Education during the year to give consideration to unanticipated income and expenditures. The original and final revised budget for the General Fund is presented in a budgetary comparison schedule in the required supplementary section.

Formal budgetary integration was employed as a management control device during the year for all budgeted funds. Expenditures cannot legally exceed appropriations by major object account.

NOTE 3 DEPOSITS AND INVESTMENTS

Custodial Credit Risk - Deposits

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a deposit policy for custodial risk. As of June 30, 2023, \$23,126,642 of the District's bank balance of \$24,265,379 was exposed to credit risk as follows:

District's Bank Balance

Uninsured and Collateral Held by Pledging Bank's Trust Department Not in the District's Name	\$ 21,557,945

NOTE 3 DEPOSITS AND INVESTMENTS (CONTINUED)

Cash in County

In accordance with Education Code Section 41001, the District maintains substantially all of its cash in the Los Angeles County Treasury as part of the common investment pool. The District is considered an involuntary participant in the investment pool. These pooled funds are recorded at amortized cost which approximates fair value. Fair value of the pooled investments at June 30, 2023 is measured at 95.1672% of amortized cost. The District's deposits in the fund are considered to be highly liquid.

The county is authorized to deposit cash and invest excess funds by California Government Code Sections 53534, 53601, 53635, and 53648. The county is restricted to invest in time deposits, U.S. government securities, state registered warrants, notes or bonds, State Treasurer's investment pool, bankers' acceptances, commercial paper, negotiable certificates of deposit, and repurchase or reverse repurchase agreements. The funds maintained by the county are either secured by federal depository insurance or are collateralized. The county investment pool is not required to be rated. Interest earned is deposited quarterly into participating funds. Any investment losses are proportionately shared by all funds in the pool.

The county investment pool is not registered as an investment company with the Securities and Exchange Commission (SEC) nor is it an SEC Rule 2a7-like pool. California Government Code statutes and the County Board of Supervisors set forth the various investment policies that the County Treasurer follow. The method used to determine the value of the participant's equity withdrawn is based on the book value, which is amortized cost, of the participant's percentage participation on the date of such withdrawals.

The pool sponsor's annual financial report may be obtained from the Los Angeles County Public Affairs Office, Kenneth Hahn Hall of Administration, 500 W. Temple St, Room 358, Los Angeles, CA 90012.

Other Current Assets – Investments

The District is authorized to invest funds by California Government Code Sections noted above and maintains investments in the associated student activity funds in a mutual fund with current maturities. The cost and fair value at June 30, 2023 is \$418,691 and \$749,555, respectively. The fair value is based on quoted prices for identical investments in active markets. The investment is uninsured and uncollateralized.

NOTE 8 GENERAL OBLIGATION BONDS

Measure A Series

On March 30, 1999, the District voters approved the issuance of \$295,000,000 of general obligation bonds under the provisions of Title 1, Division 1, Part 10, Chapter 2 of the state California Education Code, commencing with 15100. The District has offered the following general obligation bonds for sale: Series A for \$25,000,000 (July 15, 1999), Series B for \$30,000,000 (July 1, 2000), Series C for \$60,000,000 (August 1, 2001), Series D for \$40,000,000 (May 1, 2002), Series E for \$60,000,000 (May 1, 2003), Series F of \$50,000,000 (June 1, 2004), and Series G \$14,345,000 of current interest bonds and \$15,650,606 of capital appreciation bonds (July 17, 2008). The bonds were issued to finance various capital improvements in particular to upgrade outdated heating, plumbing, ventilation and electrical systems, rehabilitate 50 year old classrooms, repair leaky roofs, upgrade classroom electrical systems for computers, and build new classrooms and schools to eliminate overcrowding and allow students to attend neighborhood schools.

Refunding Bond Series

On July 17, 2008, the District issued 2008 General Obligation Refunding Bonds, Series A of \$38,320,000 current interest bonds. The bonds were issued to refund certain outstanding general obligation bonds Series A through D of the District and to pay the costs of issuance associated with the Refunding Bonds.

Refunding Bond Series (Continued)

On April 7, 2009, the District issued 2009 General Obligation Refunding Bonds, Series B of \$28,465,000 current interest bonds. The bonds were issued to refund certain outstanding general obligation bonds Series A through C of the District and to pay the costs of issuance associated with the Refunding Bonds.

On February 3, 2010, the District issued 2010 General Obligation Refunding Bonds, Series A of \$51,720,000 serial and term bonds. The bonds were issued to refund certain outstanding general obligation bonds Series A and C through F of the District and to pay the costs of issuance associated with the Refunding Bonds.

On April 19, 2011, the District issued 2011 General Obligation Refunding Bonds, Series D of \$11,330,000 current interest serial bonds. The bonds were issued to refund certain outstanding general obligation bonds Series E of the District and to pay the cost of issuance associated with the Refunding Bonds.

On March 27, 2012, the District issued 2012 General Obligation Refunding Bonds, Series E of \$81,780,000 serial bonds. The bonds were issued to refund all of the District's outstanding general obligation bonds, Series C through E, to advance refund a portion of Series F and pay the costs of issuance associated with the Refunding Bonds.

On April 14, 2016, the District issued 2016 General Obligation Refunding Bonds of \$139,370,000. The bonds were issued to advance refund certain outstanding general obligation bonds, Series G (Measure A) and Series A (Measure K) and certain outstanding general obligation refunding bonds 2008 refunding and Series B refunding and to pay the costs of issuance associated with the Refunding Bonds.

The difference between the reacquisition price and the net carrying amount on refunded debt is deferred and amortized as a component of interest expense over the life of the new debt. Payments to the refunding escrow agent exceeded the existing carrying value of the refunded debt by \$3,102,565 (2010 Refunding), \$1,729,692 (2012 Refunding) and \$13,362,567 (2016 Refunding). Amortization of \$1,012,136 was recognized during the 2021-22 year.

Proceeds associated with each refunding were deposited into an irrevocable escrow account for future repayment. At June 30, 2023 there were no outstanding balances due to be paid by the escrow agent in relation to the refunded bonds.

NOTE 10 POSTEMPLOYMENT HEALTHCARE BENEFITS

The District administers a single employer defined benefit health care plan (the Retiree Health Plan).

The details of the plan are as follows:

Plan Description and Eligibility

The District pays for the health benefit coverage of eligible retirees, including employees who retire on disability, who have attained the age of 55 and have worked for the District for at least 15 or 17 years depending on their bargaining unit. Their benefits are paid until the retiree reaches the age of 65 or 67, respectively. However, in the case of disability retirees, there is no age requirement and coverage is until the person reaches age 67 or for up to 39 months, whichever comes earlier.

Benefit provisions are established through negotiations between the District and the bargaining unions representing employees.

NOTE 10 POSTEMPLOYMENT HEALTHCARE BENEFITS (CONTINUED)

Plan Description and Eligibility (Continued)

Membership in the health benefit plan consisted of the following at July 1, 2022, the date of the latest actuarial valuation:

<u>Participant Type</u>	<u>Number of Participants</u>
Active - Fully Eligible to Receive Plan Benefits	1,236
Active - Not Fully Eligible	4,875
Inactive - Receiving Plan Benefits	813
Total	6,924

Funding Policy

The contribution requirements of Plan members and the District are established and may be amended by the District and District's bargaining units. The required contribution is based on projected pay-as-you-go financing requirements. As of June 30, 2023, the District has not established a trust or equivalent that contains an irrevocable transfer of assets dedicated to providing benefits to retirees in accordance with the terms of the Plan and that are legally protected from creditors.

Actuarial Methods and Assumptions

Actuarial assumptions. The total OPEB liability was determined by applying update procedures to an actual valuation as of July 1, 2022 and rolling back to total OPEB liability at June 30, 2023. The following actuarial assumptions used in the July 1, 2022 valuation, applied to all periods included in the measurement, unless otherwise specified:

Valuation Data	July 1, 2022
Measurement Date	June 30, 2023
Actuarial Cost Method	Entry Age Normal Cost Method
Discount Rate	4.13%
Salary Increases	2.75% per annum (for normal cost and amortization of UAL)
Healthcare Costs Trend Rate	7.00% for the 2023/2024; declining to 4.14% in 2075 and beyond
Retiree's Share of Costs	Retirees pay the balance of the premium after District Contribution limited to the cost of "self-paid" health benefits

Mortality rates were based on the expectation that future experience under the plan will be materially consistent with the assumptions utilized in the CalSTRS and CalPERS valuations. CalSTRS mortality rates are from the 2020 experience study. The CalPERS mortality rates are from the 2021 experience study.

The discount rate used to measure the OPEB liability was changed from 4.09 to 4.13%. The projection of cash flows used to determine the discount rate assumed that contributions will be made at rates equal to the expected benefit payments. Because the OPEB plan is unfunded, the discount rate reflects the required use of a 20-year municipal bond yield. The S&P Municipal Bond 20 Year High Grade Rate Index was used for this purpose.

California State Teachers' Retirement System (CalSTRS)

Plan Description

The District contributes to the State Teachers' Retirement Plan (STRP) administered by the California State Teachers' Retirement System (CalSTRS). STRP is a cost-sharing multiple-employer public employee retirement system defined benefit pension plan. Benefit provisions are established by state statutes, as legislatively amended, within the state Teachers' Retirement Law.

Benefits Provided

The STRP provides retirement, disability and survivor benefits to beneficiaries. Benefits are based on members' final compensation, age, and years of service credit. Members hired on or before December 31, 2012, with five years of credited service are eligible for the normal retirement benefit at age 60. Members hired on or after January 1, 2013, with five years of credited service are eligible for the normal retirement benefit at age 62. The normal retirement benefit is equal to 2.0% of final compensation for each year of credited service. The STRP is comprised of four programs: Defined Benefit Program, Defined Benefit Supplement Program, Cash Balance Benefit Program, and Replacement Benefits Program. The STRP holds assets for the exclusive purpose of providing benefits to members and beneficiaries of these programs. CalSTRS also uses plan assets to defray reasonable expenses of administering the STRP. Although CalSTRS is the administrator of the STRP, the state is the sponsor of the STRP and obligor of the trust. In addition, the state is both an employer and nonemployer contributing entity to the STRP.

The District contributes to the STRP Defined Benefit Program and STRP Defined Benefit Supplement Program, thus disclosures are not included for the other plans.

The contribution rates for each plan for the year ended June 30, 2023 are presented above and the total District contributions were \$94,109,585.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2023, the District reported a liability for its proportionate share of the net pension liability that reflected a reduction for state pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related state support, and the total portion of the net pension liability that was associated with the District were as follows:

	Balance
	<u>June 30, 2023</u>
District Proportionate Share of the Net Pension Liability	\$ 525,314,160
State's Proportionate Share of the Net Pension Liability	
Associated with the District	<u>263,078,870</u>
Total	<u>\$ 788,393,030</u>

The net pension liability was measured as of June 30, 2022. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts and the state, actuarially determined. At June 30, 2022, the District's proportion was 0.756% which is an increase of 0.043% from its proportion measured as of June 30, 2021.

For the year ended June 30, 2023, the District recognized pension expense of \$40,373,172 and revenue and corresponding expense of \$21,217,137 for contributions provided by the state representing total pension expense of \$61,590,309. At June 30, 2023, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Total	\$ 159,403,434	\$ 91,642,775

The deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2024. The net difference between projected and actual earnings on plan investments is amortized over a five year period on a straight-line basis. All other deferred outflows of resources and deferred inflows of resources are amortized over the expected average remaining service life (EARSL) of the plan participants. The EARSL for the STRP for the June 30, 2022 measurement date is seven years.

Actuarial Methods and Assumptions

Total pension liability for STRP was determined by applying update procedures to a financial reporting actuarial valuation as of June 30, 2021, and rolling forward the total pension liability to June 30, 2022. No material changes in assumptions or benefit terms occurred between the actuarial valuation date and the measurement date. The financial reporting actuarial valuation as of June 30, 2021 used the following methods and assumptions, applied to all prior periods included in the measurement:

Valuation Date	June 30, 2021
Measurement Date	June 30, 2022
Experience Study	July 1, 2015 through June 30, 2018
Actuarial Cost Method	Entry Age Normal
Discount Rate	7.10%
Investment Rate of Return	7.10%
Consumer Price Inflation	2.75%
Wage Growth	3.50%

CalSTRS uses a generational mortality assumption, which involves the use of a base mortality table and projection scales to reflect expected annual reductions in mortality rates at each age, resulting in increases in life expectancies each year into the future. The base mortality tables are CalSTRS custom tables derived to best fit the patterns of mortality among its members. The projection scale was set equal to 110% of the ultimate improvement factor from the Mortality Improvement Scale (MP-2019) table, issued by the Society of Actuaries.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. The best estimate ranges were developed using capital market assumptions from CalSTRS investment staff and investment consultants and adopted by the CalSTRS Board in January 2020. Best estimates of 20-year geometrically linked real rates of return and the assumed asset allocation for each major asset class used as input to develop the actuarial investment rate of return are summarized in the following table:

Discount Rate

The discount rate used to measure the total pension liability was 7.10%, which was unchanged from the prior fiscal year. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at statutory contribution rates. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return of 7.10% and assume that contributions, benefit payments, and administrative expense occur midyear. Based on these assumptions, the STRP's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

The following presents the District's proportionate share of the net pension liability calculated using the current discount rate as well as what the net pension liability would be if it were calculated using a discount rate that is one percent lower or higher than the current rate:

Discount Rate	Net Pension Liability

California Public Employees Retirement System (CalPERS)

Plan Description

Qualified employees are eligible to participate in the Schools Pool Plan under the California Public Employees' Retirement System (CalPERS), a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by CalPERS. The plan provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by state statutes, as legislatively amended, within the Public Employees' Retirement Law.

Benefits Provided

CalPERS provides service retirement and disability benefits, annual cost of living adjustments, and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of service credit, a benefit factor, and the member's final compensation. Members hired on or before December 31, 2012, with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. Members hired on or after January 1, 2013, with five years of total service are eligible to retire at age 52 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after 5 years of service. The Basic Death Benefit is paid to any member's beneficiary if the member dies while actively employed. An employee's eligible survivor may receive the 1957 Survivor Benefit if the member dies while actively employed, is at least age 50 (or 52 for members hired on or after January 1, 2013), and has at least 5 years of credited service. The cost of living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

Contributions

Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Total plan contributions are determined through the CalPERS annual actuarial valuation process. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. The contributions rates are expressed as percentage of annual payroll. The contribution rates for each plan for the year ended June 30, 2023 are as presented above and the total District contributions were \$33,696,128.

Pension Liabilities, Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions

As of June 30, 2023, the District reported net pension liabilities for its proportionate share of the CalPERS net pension liability totaling \$249,431,459. The net pension liability was measured as of June 30, 2022. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts, actuarially determined. At June 30, 2022, the District's proportion was 0.7249% which is a decrease of 0.0433% from its proportion measured as of June 30, 2021.

For the year ended June 30, 2023, the District recognized pension expense of \$23,125,180. At June 30, 2023, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Actuarial Methods and Assumptions

Total pension liability for the Schools Pool Plan was determined by applying update procedures to a financial reporting actuarial valuation as of June 30, 2021, and rolling forward the total pension liability to June 30, 2022. No material changes in assumptions or benefit terms occurred between the actuarial valuation date and the measurement date. The financial reporting actuarial valuation as of June 30, 2021 used the following methods and assumptions, applied to all prior periods included in the measurement:

Actuarial Methods and Assumptions (Continued)

In determining the long-term expected rate of return, CalPERS took into account long-term market return expectations as well as the expected pension fund cash flows. Projected returns for all asset classes are estimated and, combined with risk estimates, are used to project compound (geometric) returns over the long term. The discount rate used to discount liabilities was informed by the long-term projected portfolio return. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Assumed Asset Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Global Equity - Cap-weighted	30 %	4.54 %
Global Equity - Non-cap-weighted	12	3.84
Private Equity	13	7.28
Treasury	5	0.27
Mortgage-backed Securities	5	0.50
Investment Grade Corporates	10	1.56
High Yield	5	2.27
Emerging Market Debt	5	2.48
Private Debt	5	3.57
Real Assets	15	3.21
Leverage	(5)	(0.59)

Discount Rate

The discount rate used to measure the total pension liability was 6.90%, which was a decrease from 7.15% in the prior fiscal year. This rate reflects the long-term expected rate of return for the Schools Pool Plan net of investment expenses and without reduction for administrative expenses. The projection of cash flows used to determine the discount rate assumed the contributions from plan members and employers will be made at statutory contribution rates. Based on these assumptions, the Schools Pool Plan fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine total pension liability.

The following presents the District's proportionate share of the net pension liability calculated using the current discount rate as well as what the net pension liability would be if it were calculated using a discount rate that is one percent lower or higher than the current rate:

<u>Discount Rate</u>	<u>Net Pension Liability</u>

Changes of Assumptions

During the fiscal year of the measurement date of June 30, 2022, the CalPERS Board adopted new mortality assumptions for the plan. The new mortality table was developed from the 2021 experience study and includes generational mortality improvements using 80% of scale MP 2020 published by the Society of Actuaries. The inflation assumption is reduced from 2.50% to 2.30%. The discount rate and investment rate of return are reduced from 7.15% to 6.90%. Deferred outflows of resources for changes of assumptions represents the unamortized portion of this assumption change.

Plan Description and Contribution Information

In 1998, the Long Beach Unified School District approved the development of an alternate retirement system for management employees of the District. The Long Beach Schools Business Management Authority Retirement Plan (LBSBMA) is a defined benefit pension plan established as an alternative to PERS (Public Employees Retirement System). As of July 1, 2004, the plan is no longer accepting new members. The District has negotiated to have participating members reinstated in PERS. LBSBMA covered pension benefits for employees that elected to participate in the plan. Employees who qualified for the plan were classified management and supervisors. The plan was established under IRS Code 401(a).

NOTE 13 SELF-INSURANCE FUND

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Through the year, the District has maintained the following self-insurance programs and accounts for them in Internal Service Funds. The District is self-insured for property and liability, health, vision, dental and workers' compensation. These funds account for and finance the uninsured portion of losses. The Deductible Insurance Fund provides general liability coverage primarily for particular property damage and bodily injury claims. The District participates in a Joint Powers Authority for claims in excess of the amount provided by the Deductible Insurance Fund and for certain other risks. Settled claims have not exceeded this commercial coverage in any of the past three years. In addition, through the Deductible Insurance Fund, the District is completely self-insured for certain other types of claims, principally related to property losses due to vandalism and natural disasters.

Through its Health, Vision and Dental Insurance Fund, the District is partially self-insured for health, vision and dental plan claims. The District maintains an excess insurance policy for health program claims.

The District is self-insured for claims related to workers' compensation. The District carries excess insurance for claims over their retention.

Payments from the applicable government fund type are made to the self-insurance fund in amounts needed to pay the estimated claims as well as fund future obligations.

**LONG BEACH UNIFIED SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS

NOTE 13 SELF-INSURANCE FUND (CONTINUED)

Liabilities for loss and loss adjustment expenses for each Internal Service Fund are based on the ultimate cost of settling the claims which include the accumulation of estimates for losses reported prior to the balance sheet date and an estimate of losses incurred but not reported. Such liabilities, which are discounted at 1.3%, are estimates of future expected settlement and are based upon analysis of historical patterns of the number of incurred claims and their values. Individual reserves are continuously monitored and reviewed, and as settlements are made, or reserves adjusted, differences are reflected in current operations.

At June 30, 2023, the District accrued the claims liability in accordance with GAAP which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. The liability is estimated at \$43,273,865. The Self Insurance Funds currently have a combined positive fund balance of \$40,460,348. This is largely due to workers' compensation balances. Changes in the reported liability are shown below:

NOTE 14 JOINT POWERS AGREEMENTS

The District participates in two joint powers agreement (JPA) entities, the Alliance of Schools for Collective Insurance Programs (ASCIP) and the Schools Excess Liability Fund (SELF). The relationship between the District and the JPAs is such that neither of the JPAs are a component unit of the District for financial reporting purposes, as explained below.

ASCIP arranges for and provides property and liability insurance for its member districts. Long Beach Unified School District pays a premium commensurate with the level of coverage requested.

**LONG BEACH UNIFIED SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2023**

NOTE 14 JOINT POWERS AGREEMENTS (CONTINUED)

SELF arranges for and provides a self-funded or additional insurance for excess liability funding for approximately 1,250 public educational agencies. SELF is governed by a board comprised of 17 elected voting members, elected alternates and two ex-officio members. The board controls the operations of SELF, including selection of management and approval of operating budgets, independent of any influence by the members beyond their representation on the board. Each member pays an annual premium based upon the amounts calculated by SELF's board of directors and shares surpluses and deficits proportionate to its participation in SELF.

Each JPA is independently accountable for its fiscal matters. Budgets are not subject to any approval other than that of the respective governing boards. Separate financial statements for each JPA may be obtained from the respective entity.

NOTE 15 COMMITMENTS AND CONTINGENCIES

Litigation

The District is involved in claims and legal actions arising in the ordinary course of business. In the opinion of management, the ultimate disposition of these matters will not have a material adverse effect on the District's financial statements.

The District has filed a Federal Complaint seeking recover of investigation and clean-up costs associated with contaminated soil at one of the District school sites. A counterclaim has been filed as a result against the District which could result in the repayment of past costs which have not yet been estimated. Insurance may provide coverage against the counterclaims. As the outcome and cost to the District are uncertain, a liability has not been recorded in these financial statements.

State and Federal Allowances, Awards, and Grants

The District has received state and federal funds for specific purposes, including reimbursement of mandated costs, which are subject to review and audit by the grantor agencies. Although such audits could generate expenditure disallowances under terms of the grants, it is believed that any required reimbursement will not be material.

NOTE 15 COMMITMENTS AND CONTINGENCIES (CONTINUED)

County School Facilities Funds

The District is currently involved in several construction and modernization projects funded through the Office of Public School Construction. These projects are subject to future audits by the State, which may result in other adjustments to the fund.

Purchase Commitments

As of June 30, 2023, the District was committed under various capital expenditure purchase agreements for construction and modernization projects totaling approximately \$197.9 million. Projects will be funded through Bond Proceeds, State School Facilities Grants, and General Funds.

NOTE 16 RESTATEMENT OF BEGINNING NET POSITION

During the year ended June 30, 2023, beginning net position of the governmental activities was restated for the implementation of GASB Statement No. 96 to record subscription-based information technology arrangements (SBITA). This increased the SBITA payable and decreased net position of the governmental activities by \$85,407.

The restatements are as follows:

**LONG BEACH UNIFIED SCHOOL DISTRICT
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
JUNE 30, 2023**

NOTE 1 PURPOSE OF SCHEDULES

Schedule of Budgetary Comparison for the General Fund

A budgetary comparison is presented for the general fund. This schedule presents the budget as originally adopted, the revised budget as of the fiscal year end, actual amounts at fiscal yearend, and any adjustments needed to present the amounts in accordance with generally accepted accounting principles (GAAP).

Schedule of Changes in the District's Total Postemployment Healthcare Benefits Liability and Related Ratios

The schedule is intended to show trends about the changes in the District's actuarially determined liability for postemployment healthcare benefits other than pensions. In the future, as data becomes available, 10 years of information will be presented.

The District has not established a plan or equivalent that contains an irrevocable transfer of assets dedicated to providing benefits to retirees in accordance with the terms of the Plan and that are legally protected from creditors.

Benefit changes – None

Changes of Assumptions:

2022-2023

Discount rate increased from 4.09% to 4.13% based on the 2023 Getzen model, with long term inflation of 2.70%, increased from 2.50%.

Health Care Trend Rate remained at 7.00% in the 2022/23 fiscal year grading down to 4.14% rather than 3.94%.

2021-22:

Discount rate increased from 2.18% to 4.09%.

Health Care Trend Rate increased from 6.75% to 7.00% in the 2021/22 fiscal year grading down to 3.94% rather than 4.5% based on the 2022 Getzen model, with long term inflation of 2.50% with consideration for the CalSTRS 2020 experience study and the CalPERS 2021 experience study rather than publicly available market information and expectations of future plan experience (assumption set during a time of great uncertainty due to the COVID-19 pandemic).

CalSTRS mortality rates are from the 2020 experience study and the CalPERS mortality rates are from the 2021 experience study rather than from the 2020 experience study and the CalPERS mortality rates are from the 2017 experience study.

Per Capita claims costs were developed based on premium equivalent rates, adjusted for age and gender based on current demographics (average age 48 for HMO and 51 for PPO), and the morbidity factors.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
JUNE 30, 2023**

NOTE 1 PURPOSE OF SCHEDULES (CONTINUED)

Schedule of Changes in the District's Total Postemployment Healthcare Benefits Liability and Related Ratios (Continued)

Changes of Assumptions (Continued):

2020-21:

Discount Rate decreased from 2.66% to 2.18%

Health Care Trend Rate decreased from 7% to 6.75% in the 2020/21 fiscal year grading down to 4.5% rather than 5.0%

Morbidity rates, which are based on the June 2013 Society of Actuaries Study were updated to reflect current demographics of the covered population.

Mortality, termination, retirements and disability assumptions for certificated participants were updated to reflect the CalSTRS 2020 experience study.

2019-20:

Discount Rate decreased from 2.79% to 2.66%

Schedules of District's Proportionate Share of the Net Pension Liability – CalSTRS (STRP) and CalPERS (Schools Pool Plan)

The schedule presents information on the District's proportionate share of the net pension liability, the plans' fiduciary net position and, when applicable, the state's proportionate share of the net pension liability associated with the District. In the future, as data becomes available, 10 years of information will be presented.

Benefit changes – None

Changes of Assumptions:

2021-22

CalPERS Board adopted new mortality assumptions and new mortality tables for the plan. Assumption for inflation rate was reduced from 2.50% to 2.30%. A new discount rate was applied decreasing the rate from 7.15% to 6.90%.

2019-20

CalSTRS Board adopted a new experience study which updated assumptions for termination rates and service rates.

2018-19

CalPERS Board adopted new mortality assumptions for the plan. Assumption for inflation rate was reduced from 2.75% to 2.50%. Assumption for individual salary increases and overall payroll growth was reduced from 3.00% to 2.75%.

SUPPLEMENTARY INFORMATION

**LONG BEACH UNIFIED SCHOOL DISTRICT
HISTORY AND ORGANIZATION
YEAR ENDED JUNE 30, 2023**

The District began operations as a newly formed unified district on July 1, 1945. During the current year, the District educates over 67,000 students in eighty-three (83) K-12 schools, one adult school, and two (2) charter schools in the cities of Long Beach, Signal Hill, Santa Catalina Island, the major portion of Lakewood, and unincorporated territory in Los Angeles County. There were no changes in the boundaries of the District during the current year.

Beginning in 2020, the general election for elective officers of the city of Long Beach (including members of the District Board of Education) was changed from the June general election date to the new November statewide general election date. For the transition, a one-time adjustment was made to the terms of office for those board members elected in the 2016 election; their terms were extended by five months (July to December) to match them with the new election cycle, as permitted by California Elections Code section 10404.5(g).

The District Board of Education and the District Administrators for the fiscal year ended June 30, 2023 were as follows:

DISTRICT BOARD OF EDUCATION

<u>Member</u>	<u>Office</u>	<u>Term Expires</u>
Diana Craighead	President	December 2026

NOTE 1 PURPOSE OF SCHEDULES

Schedule of Average Daily Attendance

Average daily attendance is a measurement of the number of pupils attending classes of the District. The purpose of attendance accounting from a fiscal standpoint is to provide the basis on which apportionments of state funds are made to school districts. This schedule provides information regarding the attendance of students at various grade levels and in different programs.

Schedule of Instructional Time

This schedule presents information on the amount of instructional time offered by the District and whether the District complied with the provisions of article 8 (commencing with Section 46200) of chapter 2 of part 26 of the Education Code.

Schedule of Expenditures of Federal Awards

Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal award activity of the District under programs of the federal government for the year ended June 30, 2023. The information in this Schedule is presented in accordance with the requirements of the Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of operations of the District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the District.

Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance. Under these principles, certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

Indirect Cost Rate

The District did not use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

Schedule of Financial Trends and Analysis

The *2022-23 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting* requires that this schedule be prepared showing financial trends of the general fund over the past three fiscal years as well as the current year budget. This report is intended to identify if the District faces potential fiscal problems and if they have met the recommended available reserve percentages.

NOTE 1 PURPOSE OF SCHEDULES (CONTINUED)

Schedule of Charter Schools

The *2022-23 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting* requires that this schedule list all charter schools chartered by the District and inform the users whether or not the charter school information is included in the District's financial statements.

Reconciliation of Annual Financial and Budget Report with Audited Financial Statements

This schedule provides the information necessary to reconcile the fund balances of all funds as reported on the annual Financial and Budget Report form to the audited financial statements.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

District Board of Education
Long Beach Unified School District
Long Beach, California

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Long Beach Unified School District (the District), as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated November 30, 2023.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency or a combination of deficiencies in internal control such that there is a reasonable possibility that a material misstatement of the financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

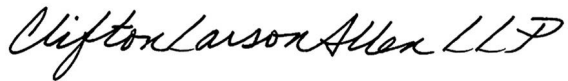

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District’s financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

District Board of Education
Long Beach Unified School District
Long Beach, California

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Long Beach Unified School District's (the District) compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2023. The District's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

In our opinion, the District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2023.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the District's federal programs.

Auditors' Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on State Compliance

Opinion on State Compliance

We have audited the Long Beach Unified School District's (the District) compliance with the types of compliance requirements applicable to the District described in the *2022-23 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, published by the Education Audit Appeals Panel for the year ended June 30, 2023. The District's applicable State compliance requirements are identified in the table below.

In our opinion, the District complied, in all material respects, with the compliance requirements referred to above that are applicable to the District for the year ended June 30, 2023.

Basis for Opinion on State Compliance

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and the *2022-23 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, published by the Education Audit Appeals Panel. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

Responsibilities of Management for State Compliance

Management is responsible for compliance with the requirements referred to above, and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the District's state programs.

Auditors’ Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District’s compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the *2022-23 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting* will always detect a material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District’s compliance the requirements of the state programs as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the *2022-23 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District’s compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.

Independent Study Documentation

40000

Criteria: For the 2021-22 school year only, Average Daily Attendance (ADA) may not be claimed from attendance generated from independent study until a signed written agreement is completed no later than 30 days after the first day of instruction or October 15, whichever date comes later. (EC section 51747[g][9] (F)). In addition, ADA may only be claimed for independent study to the extent of the time value of pupil work products, as personally judged in each instance by a certificated teacher employed by the LEA or a combination of time value of the work product and participation in synchronous instruction, as applicable by grade level. (EC Section 51747.5 (b)(1)).

Condition:

1. It was found that the district claimed 10 (0.08 total ADA) days of attendance for a short-term independent study student in grade K when a signed master agreement had not been completed.
2. It was found that the District claimed five days of attendance (0.04 total ADA) for an independent study student in grade 11. Work samples could not be located to support the attendance recorded.
3. It was found that the district claimed five days of attendance for a student in grade 6, when a signed master agreement had not been completed. (0.94 total ADA)
4. It was found that the district claimed five days of attendance for a student in grade 6, when a signed master agreement had not been completed. (0.95 total ADA)
5. It was found that the District claimed five days of attendance (0.04 total ADA) for an independent study student in grade 6. Work samples could not be located to support the attendance recorded.

Effect: Attendance is overstated.

Cause: Inadequate procedures for the filing of the master agreements and work products. Additionally, for the short-term independent study student, the parent did not feel comfortable coming to the site to sign the agreement and there did not appear to be an established procedure for electronic signatures or other means for remote authorization.

Questioned Costs:

Grade Span	Total ADA Adjustment (P-2)	Total ADA Adjustment (P-Annual)	Estimated Fiscal Impact (1)
Grades TK-3	(0.08)	(0.06)	\$ -
Grades 6-8	(1.92)	(1.89)	\$ -
Grade 9-12	(0.04)	(0.03)	\$ -

(1) The District is paid on the greater of prior year and current year ADA. Since prior year ADA was higher, there was no impact to the current year.

Recurring Finding: No

STATE COMPLIANCE FINDINGS (CONTINUED)

2022-001 Independent Study Documentation (Continued) 40000

Recommendation: The attendance reports should be modified to exclude all attendance for independent study students that are not supported by a signed master agreement or work product. In addition, the district should provide training on procedures for independent study programs which may include procedures and resources for obtaining electronic signatures to facilitate remote authorization by parents and students.

Current Status: Implemented

2022-002 Revised P-2 & Annual Reports 10000

Criteria: Monthly totals (days of apportionment attendance) should reconcile between the site's attendance summary to the summary maintained by the LEA for the P2 and Annual attendance reports.

Condition:

It was found that the district did not submit revised P-2 and Annual reports after teachers at one of the District's sites made changes in the attendance system. The changes resulted in a decrease to the Average Daily Attendance(ADA) reported.

Effect: Attendance is overstated.

Cause: Failure to file a revised P-2 and Annual report after changes were made in District's attendance system.

Questioned Costs:

Site	Total ADA Adjustment (P-2)	Total ADA Adjustment (P-Annual)	Estimated Fiscal Impact (1)
Educational Partnership High School	(60.87)	(2.06)	\$ -

⁽¹⁾The District is paid on the greater of prior year and current year ADA. Since prior year ADA was higher, there was no impact to the current year.

Recurring Finding: No

Recommendation: A revised P-2 and Annual report should be filed if there are any changes made in the District's attendance system after the original P-2 or Annual reports are filed.

Current Status: Implemented

STATE COMPLIANCE FINDINGS (CONTINUED)

2022-003 Unduplicated Local Control Funding Formula Pupil Counts 40000

Criteria: Education Code Section 42238.02(b)(2) requires a school district to submit its enrolled free and reduced-price meal eligibility, foster youth and English Learner (EL) pupil-level records for enrolled pupils using the California Longitudinal Pupil Achievement Data System (CalPADS). The CalPADS reports should accurately report the number of students as identified above.

Condition: One student in our sample of sixty-one students tested was reported in the CalPADS system as reduced however there was no income survey completed by the parent on file to support this designation.

Effect: The District is not in compliance with Education Code section 42238.02 (b) (2). The 1.17 report contained errors as follows:

School Name	Enrollment Count as Reported in the CalPADS System	Unduplicated Eligible Free/Reduced Meal (FRM) Counts	English Learner (EL) Funding Eligible	Total Unduplicated FRPM/EL Eligible
Gompers Elementary				
As reported	342	155	23	162
Audit adjustments	-	(10)	-	-
Adjusted	342	145	23	162
District Total				
As reported	67,292	39,345	10,485	42,279
Audit adjustments	-	(10)	-	-
Adjusted	67,292	39,335	10,485	42,279

Cause: This appears to be an inadvertent clerical error.

Questioned Costs: One student of the sampled population of sixty-one students tested who had been evaluated for FRM status, had no available supporting documentation. The error rate was extrapolated based on a result of 1 error in a sample of 4 students tested at Gompers Elementary or 25%. This was applied to the total applicable population of 41 FRM students at Gompers Elementary resulting in an estimated 10 error count of students in FRM status at Gompers Elementary. Correction of these errors in the CALPADS system did not result in a decrease to principal apportionment or penalty calculated.

Recommendation: We recommend the District adopt procedures to ensure documents are filed and stored to support FRM status in the reporting system.

Current Status: Implemented
